WHAT IS THE SELF-DIRECTED SEARCH?

Self-Directed Search (SDS) is a career assessment and exploration tool that matches your aspirations, activities, and talents to the career choices and educational opportunities that fit you best.

The assessment asks questions about an individual's aspirations, activities, competencies, interests, and other self-estimates. It takes only about 20 minutes to complete.

At the end of the online assessment a customized report is generated. It will include a personalized list of occupations and fields of study, and an overview of salary data associated with favorite occupations. It also includes links to resources to assist users with educational and career planning.

There is a cost for the assessment, but you can take the Self-Directed Search for free at OhioMeansJobs Shelby County, located at 227 South Ohio Avenue Sidney, Ohio. No appointment is needed. Hours of operation are Monday-Friday 7:30am-4:00pm. Explore more at [**https://self-directed-search.com/**](https://self-directed-search.com/)
